

I would like to urge the FCC not to give LPFM priority over current FM translators. We are supporters of KLOVE radio, which broadcasts on FM translators and we find it to be an invaluable asset to us and our local community. KLOVE is a radio organization that provides our local community with music, news and entertainment that contribute to the livability and integrity of our city and state. If KLOVE were to be displaced by LPFM programming, the negative impact on our community would be significant. Education, volunteerism, love of others, philanthropy and charity are just some of the values that are promoted and encouraged via KLOVE radio. If KLOVE is unable to continue to transmit their broadcasts in our community, it is certainly not in the public's best interest. We ask for your careful consideration of this issue and ask you to not allow LPFM stations to override current FM translator services, specifically KLOVE radio. Thank you.
